PROSPECTUS OF THE "NATIONAL MON-UMENT,"

A weekly journal to be published in Washington, under the sanction of the Washington National Monument Society. JAMES C. PICKETT, EDITOR AND PUBLISH Monument is intended to be alterary, agricultural iscellansous paper. It will contain selections of the ure of the day—the best that can be found in Amerid English publications: interesting scientific articles cing mechanics; foreign and domestic news; a sy of the proceedings of Congress, and every thing uch a journal might be expected to contain, with caption of party politics, which will be at all time rigorously excluded.

caption of party politics, which will be at all times in the content will be published for the express and the purpose of aiding in the erection of the noble in now rising on the banks of the Potomic, in home in now rising on the banks of the Potomic, in home the Father of his Country, and which every one characted the name of Washington would rejoice to impleted. After deducting out of the subscription operated the purpose indicated. The aid, therefore, who are willing to contribute to so patriote an obad one so entirely national, is earnestly requested tearibing to the Monument, a valuable journal at a fee may be obtained, while it will be doing some at the same time, towards completing that majestic risal of the Nation's gratitude.

Board of Managers recommend Mr. Pickett, formerath Auditor of the Treasury and Charge d'Affaire to who proposes to edit and publish the Manument al, as one well qualified to perform the dutter of , and to conduct the paper faithfully, and satisfies to the subscribers. They assure their fellow-citizens his enterprise is not a speculation got up for indi-

and the content of th

ted to forward their names to the General Agent, it delay. The first number will be published early, and the second on the second day of August, and thereafter; time being allowed for the Prospectus irculated, and for the agents to make returns. As secribers will be contributors to the Monument their names will be published in the paper.

MINOTON, April 23, 1851.

WARRINGTON, April 23, 1851.

A New Route to Pittsburg.

VIA THE BALTIMORE, SUSQUEBANNA, AND PENN-SYLVANIA RAILROADS.

THROUGH TO PITTSBURG IN 33 HOURS. An express train of cars will leave Calvert Station daily, with the U.S. Mail from Washington and Baltimore, at 3 ½ a. m., connecting with the Fast Line at Middletown at 1 p. m., arriving at Harrisburg at 1½ p. m., to dinner. The train leaves Harrisburg for the West at 2 p., m. arriving at Hollidaysburg at 8 p. m. At this point, passengers have the option of taking either the Cars to Johnstown, thence by Packet Boats, or Stages direct from Hollidaysburg to Fittsburg.

Tickets will be soid to the following points, by this train, to wit: York, Wrightsville, Columbia, Marietta, Middletown, Harrisburg, Newport, Millerstown, Perrysville, Lewistown, McVeystown, Huntingdos, Hollidaysburg, and Pittsburg.

This train also connects with the Cumberland Valley Railroad, which passes through Carlisle, Shippensburg, and other points on this road:

For the accommodation of passengers from Washington for any of the above points, the Baggage, Master of the Company will be at the Deput of the Baltimore and Ohio Railroad Company on the arrival of the Moraing Cars, at 8 a. m., to reserve the Baggage, which will be carried free of charge to Calvert Station.

Austin's Magic Freezer,

Through in six minutes. For the preparation of Ice Creams, Water Ices, &c.—Patented September 19, 1848.

THE distinguising merits of this Apparatus are—

Ist. The astonishing rapidity of the process, surpassing belief—hence the name.

2d. The Cream during the progress of freezing becomes charged with simospheric air, by which it nearly doubles in bulk, and obtains that peculiar smoothness, lightness, and delicacy of favor, for which the Ice Cream of our best Confectioners is so highly prized.

2d. It does not require a tenth part of the labor that the common Freezer does.

4th. It does its work better, producing a better article, in every respect, than by suny other mode.

5th. There is a considerable saving in ice, as the tub needs no replemishing during the operation.

The annazed testimonial from the Proprietor of the Eutaw House will put to rest all doubt.

"Having witnessed the process of freezing Ice Cream having been frozen in the incred ble short time of six minutes, I cheerfully recommend it to the public."

H. F. JACKSON,

Eutaw House, Baltimore, May 15, 1848,

"This is to certify, that during the summer of 1848, I used one of Austin's Patent Ice Cream Freezers of the largest size, (10 galloms,) making from 10 to 50 galloms per day during the season; and so far as regards expedition and power, I consider it decidedly the best freezer now in use, as I have had with it no difficulty in making ten gallons of superior quality Ice Cream from five of plain Cream, in thirty minutes from the time I coinsensed working it.

A. H. HROWN,

Baltimore, April 6, 1851."

DELAWARE COLLEGE

COURSE OF INSTRUCTION.

FRESHMAN CLASS.—I. Livy, begun; Xunophon's Anabasis; Algebra, begun; History, begun;
II. Livy, finished; Homer's Odyssey, begun; Algebra, finished; Geometry, begun; History, continued.

III. Horace, begun; Homer's Odyssey, finished; Geometry, five books; History, finished.

JUNIOS CLASS.—I. Tacifus, begun; The Prometheus of Machylus and Electra of Sophocles; Analytical Geometry, finished; Gaiculus; Natural Theology; Evidences of Christianity.

pides; Tacitus, finished; Natural Philosophy; mechanic begun.

III. Moral Philosophy; Plato's Gorgias; The Captive of Pisutus; Mechanics, Hydrostatics, Pneumatics, and Meteorology.

Sopromore Class.—I. Horace, finished; Xenophon's Memorabilia; Geometry, finished; Rhetoric, begun.

II. Cicero de Amicitia and de Senectute; Herodotus, begun; Plane Trigonometry; Spherical Trigonometry; Rhetoric, continued.

III. Cicero de Officiis; Herodotus, finished; Surveying; Analytical Geometry, begun; Rhetoric, finished.

Sexioz Class.—I. Political Philosophy; The Andria of Terrence; The Clouds of Aristophanes; Acoustics, Optics Electricity, Magnetism.

PHILOSOPHICAL APPARATUS.

The College is provided with a Philosophical Apparatus that furnishes ample means of experimental illustration in all the diffarent branches of Natural Philosophy. The sum of three thousand dollars has recently been expended, partly in this country and partly in London and Faris, in the purchase of new apparatus, adapted to the present advanced state of the Physical Sciences.

EXAMINATIONS.

At the close of each study, or branch of study, the members of the class are carefully examined, and, at the close of the year, in all the studies of the year, in the presence of a Committee of the Tustees; and their attainments are communicated to the Board of Trustees.

EXIGIOUS INSTRUCTION.

RELIGIOUS INSTRUCTION. RELIGIOUS INSTRUCTION.

In addition to daily morning and evening prayer, divine worship is held twice on every Sunday, and the recitation on Monday morning is always in the Grock Testament. At the request of his parent or guardian, a student is permitted to attend any place of worship which himself or the parent or guardian may select. One member of the Faculty will attend at each of the different places of worship (Presbyterian, Episoopalian, and Methodist) in the village, and note all absentees.

Two at least of the Professors, with their families, will reside in the College buildings, and will board at a common table with the students, who are required to occupy such rooms as may be assigned them by the Faculty.

ADMISSION

ADMISSION. ADMISSION.

In order to admission to pursue the entire course, a student must be at least fourteen years of age; must give satisfactory evidence of good moral character; and must sustain an examination in the following studies, viz:

Arithmetic, Elements of Algebra, Latin and Greek Grammar, Jacob's or Felton's Greek Reader, and the first two books of Xanophon's Anabasis, Jacob's or Doering's Latin Reader, Sallust or Cassar, Cicero's Select Orations, and Virgil, or what shall be deemed equivalent.

EXPENSES.

and Virgil, or what shall be deemed equivalent.

EXPENSES.

ENTERNCE Fig.—If the student enter as Freshman, five dollars; if as Sophomore, ten dollars; if as Junior, fifteen dollars; and if as Senior, twenty dollars.

1st Sersion. 2d Sersion.

Tuition \$21 00 \$21 00

Room rent 4.90 4.00

Incidental expenses 1.00 1.00

Use of Library 75 75

Janitor's Wages 1.00 1.00

Fuel for Orntory and Recitation room 1.50

Fuel is afforded to the students at cost. A sum squal to the probable cost is advanced by each student; if more is consumed it is charged to him; if less, the balance is refunded.

The studies of this Course are arranged under the following departments, to wit:

1st. A MATHEMATICAL DEPARTMENT—In which, beginning with Arithmetic and Algebra, the student will be carried, seriotim, through all the higher branches of the Mathematics, ending in their application to Natural Philosophy, Astronomy, &c.

2d. An Enquisi Department—Comprising instruction in Orthography, History, Composition, Rhetoric, Logic, Intellectual Philosophy, Morral Philosophy, Political Grammar, Story on the Constitution, Philosophy, Ornithology, Natural Theology, Elements of Criticism, and Evidences of Christianity.

3d. A Mericantic Department—In which will be imparted an acquaintance with all that is necessary to qual-

1. Pensmanship—By an original and popular system of this art, which invariably produces a bold, finished hand, peculiarly adapted to the purposes of the accountant and business man.
2. Artimetic—Comprising numerous abbreviated me-thods of computing Interest, Discount, Equation of Pay-ments, &c., and other mercantile calculations founded on per centage; together with all such operations as are re-quisite for a thorough knowledge of the business of the counting-room.

quisite for a thorough knowledge of the business of the counting room.

3. Book-keeping—Single and Double Entry, by the most approved methods. A complete course of instruction in this branch will be furnished, designed to fit the student to take charge of any set of account books.

4th. An Agricultural Department—Comprising a selection from the English and Mathematical courses; and also, Surveying, Botany, Mineralogy, Geology, Chemistry, and Agricultural Chemistry; the last two illustrated by experimental lectures.

5th. A Civil Engister Department—In which are taught Arithmetic, mental and written,) Algebra, (mental and written,) Algebra, (mental and written,) Algebra, (mental and written,) Architecture, Perspective, Draughting, and Topography.

Newark Academy.

By a late reorganisation of this department of Delaware College, the Board of Trustoes have taken measures to place it upon a new and improved foundation, and to endow it with advantages possessed by few similar institutions in the country. The Academy, heretofore merged in the College, and of course subjected to all the evils which have been found to attend the amalgamation of the two departments in the same building, and under the same government, now enjoys the privilege of a separate establishment, without losing those which result from its relation to the College proper.

A large and elegant edifice, with all the necessary fixtures of a complete boarding establishment, has been erected and furnished, in which the students of the Academy board, under the immediate charge of the Principal and his Assistants; and all its exercises are conducted on a system of its own, uninterrupted by the interests or operations of the other department. The furniture of the study-rooms and dermitories has been chosen with peeuliar reference to comfort and convenience for study; and no expense has been spared in providing the apparatus necessary to render the means of instruction complete; giving to Newark Academy facilities for private study and comfortable accommodation of students, fully equal to those afforded by many of our colleges.

From its intimate relation to the College, students of the Academy enjoy many advantages not generally obtained at institutions of this kind. Those who wish to pursue some particular branch which falls more properly within the College course, may be admitted to recise in any of the College course, may be admitted to recise in any of the College causes. Students also of proper age, and discension, by recommendation of the Principal, and permistion of the Feeulty, may enjoy the use of the College library without additional charge. Admission also may be had to the Lectures, and such other privileges of the College acroes as the profitably sujoyed by academical students.

the College as can be profitably sujoyed by academical students.

The charge for Boarding, Washing, Fuel, Light, &c., or with tuition in the English, Latin, and Greek, is seventy fluctuation of the English and the seventy fluctuation of the English and the seventy fluctuation of the English and a fee of eight dollars for the Summer Session, and a fee of eight dollars for the Modern Languages, and a fee of five dollars for Drawing, from these who enter these classes. The sessions and vacations of the Preparatory Department are the same as those of the College.

Bev. MATTHEW MEIGS, A. M.,

President of Delaware College.

nic Headache, and Sore Throat, in all of which it prove officacious, after the trial of a vast number of other reme dies without benefit. Your medicine is as pleasant to the taste as a condial, and in my experience corrects all derangement of the stomach, restores the wasted or enfective energies of the digestive organs, and imparts afrength and reanimation to the whole system.

Very respectfully, yours, &c.,

J. HOWARD GRIFFITH,

Marshall Buildings,

Baltimore, Aug. 24th, 1850.

VALUABLE LAW BOOKS.

W E invite the attention of the Profession, and other desiring Law Books, to our very extensive stock which, we believe, contains the best assortment of American Publications in the United States. Particular attention given to turnishing or completing Libraries for the Departments, Associations, and States.

Orders by mail promptly and carefully executed.

English Common Law Reports,

58 Volumes, with a complete Index to the first 47 Volumes.
Since volume 39 of this series, The English Common Law
Reports have been reprinted in full. With volume 44, we
commenced binding each English volume separately, instead of, as formerly, two English in one American volume.

Price—For the first 43 vols., 25 50 per vol.

For the succeeding, 250 "

The reputation which these Reports maintain in England and in the United States is known to all the Profession. The low price at which they are offered compared
with the rates of some of the principal American Reports,
of even inferior merit, recommends them particularly to
the attention of those purchasing Libraries.

4 General Index to the first 47 Vols. of the Eng

A General Index to the first 47 Vols. of the Eng-lish Common Law Reports.

By Hon. George Sharswood and George W. Biddle.
Esqrs. 1 vol. 8vo.—\$5 00.

With this Key to their contents, the English Common Law Reports present to the Profession a mass of legal carning in the shape of Opinions, Dats, claborate Argu-ments, &c., &c., sufficient, probably, for the Elucidation and Prosecution or Defence of any case that can arise in our Courts of Law; and being thus made casely and in-stantly accessible, these Reports will be found so compre-hensive, convenient, and cheep, as to supersede the neces-sity of other or more expensive scales.

New English Exchequer Reports-Pleas and Equity.

Equity.

To be reprinted in full, in best style, with American Notes, by J. I. Clark Harr and H. E. Wallace, Esqrs, at \$2 50 per vol., bound.

Including McClelland and Younge, Younge and Jervis. Crompton and Jervis, Crompton and Meeson, Crompton. Messon and Roscoe, Meeson and Younge and Collyer—in Equity.

Meeson and Welsby, in 19 vols., Welsby, Hurlstone and Gordon, vol. 1, published and ready for delivery.

We take pleasure in referring to the accompanying letters, explanatory of the character of these Reports, and their value to the Profession in this country:

CAMBRIDGE, January 25, 1845.

their value to the Profession in this country:

CAMBRIDGE, January 25, 1845.

Messers. T. & J. W. Johnson:

Gentlemen—In reply to your letter, I can with great sincerity say, that I entertain a very high opinion of the recent Exchequer Reports. In my judgment they are not excelled by any cotemporaneous Reports, in learning, ability, or general utility and interest. The cases decided are discussed with great care, and expounded with uncommon force. I scarcely know of any volumes which I deem of more importance or value for a Professional Library.

JOSEPH STORY.

of more importance or value for a Professional Library.

JOSEPH STORY.

CAMBRIDGE, January 25, 1845.

Gentlemen: Your letter of the 24th has been received, in which you sake my opinion as to the value of the English Exchequer Reports, from Price downwards to this time, to an American Lawyer, and as to the expediency of reprinting them in this country. Of the high value of these Reports, both on the Pleas and Equity sides of the Court, I have not the least doubt—the decisions of this Court for the last fifteen or twenty years, both at Equity and in Common Law, being entitled to equal respect with any others in England. I should think an American Lawyer's Library essentially incomplete without them.

I am, gentlemen, very respectfully yours, SIMON GREENLEAF.

with the use of instruments in the field, Pracus, which the use of instruments in the field, Pracus, and Topography.

Oh A TRACHEN'S DEFARTMENT.—The course of study will comest of a judicious selection of subjects from the other departments, including all the branches pursued in our common schools. Practical Lectures will also be given on School Traching, both as a science and as an art.

Pupils will not only thus receive the fullest instruction relative to the best and most popular methods of teaching, but they will also have opportunities of exemplifying them, by hearing recitations in the lower departments of the Institution.

The A Department of Modern Languages—In which is students who wish to take a thorough course can have an opportunity of doing so; while others, whose object may be to acquire sufficient knowledge to translate with factity, and to pronounce with tolerable correctness, in as short a time as possible, are also provided for.

Seven Volumes—\$24 50.

Furnish a series of Decisions in the Ecclesiastical Courts of England and Scotland, from 1700 to 1838, and contain seventeen English volumes condensed in seven.
"We respectfully commend this series to the notice of the Profession. It contains the only reports of the many important cases of Wills, Settlements, Divorces, &c., and corts the whole of that important branch of the law embraced in this country by the Orphana' Court Practice.
"It would be difficult to point to any English Reports of more general value in the United States, than this selection of Decisions."—Marvin's Legal Bibliography.

British Crown Cases Reversed.

Three Folumes 49.

Three Folumes 49.

The Decisions upon the Crown Cases reversed for the consideration of the Twelve Judges of England, are of the first importance to the due administration of the criminal justice of the country; and in committing to the pressibles which have occurred during a recent period of more than forty years, the publishers believe that they are making an acceptable communication to the Profession and the publisher.

The three volumes already published contain all the Reversed Cases since Leach.

The three volumes arready pursuant Reversed Cases since Leach.

NOTICE.

BALTIMORE AND WASHINGTON RAILROAD

O N and after WEDNESDAY next, 6th instant, the station on Pennsylvania arenue will be vacated, and the new one on New Jorsey avenue occupied.

The Passenger trains will leave the latter, commencing at 5 p. m., as usual, at 6 and 9 a. m. and 5 p. m. daily, except on Sunday, when but two trains run, viz., at 6 a. m and 5 p. m.

at 5 p. m., as usual, at 6 and 9 a. m. and 5 p. m. daily, except on Sunday, when but two trains run, viz., at 6 a. m. and 5 p. m.

In making this change, the undersigned desires to call attention to the rules of the Company, in regard to the reception and delivery of merchandise:

1st. Shippers are reminded, that in all cases a bill with fall directions should accompany the goods.

This is for the protection of both parties, and unless complied with the goods cannot be received.

2d. Consignees are notified that all merchandise must be removed on the same day upon which it is received, as the Company cannot hold itself responsible for any thing left in its house during the night.

The hours for reception and delivery of merchandise are from 8 s. m. till 4 p. m.

The undersigned takes occasion to remark that these are not new regulations, but he has been compelled to call attention to them from their frequent violation, which has caused much and serious inconvenience.

T. H. PARSONS, Agent.

FURNISHING MAIL LOCKS AND KEYS.

FURNISHING MAIL LOCKS AND KEYS.

Post OFFICE DEPARTMENT,
March 14, 1851.

It being desirable to substitute locks and keys of some other kind for those now in use for the mail service the United States, specimen locks and keys, with prograds to furnish the same, will be received and considered the Post Office Department until the first day of July t. The different locks will be submitted to a commiss for examination and report. Upon this report, concts will, as soon as practicable, be entered into for for

of the United States, specimen locks and keys, with proposals to furnish the same, will be received and considered at the Post Office Department until the first day of July next. The different locks will be submitted to a commission for examination and report. Upon this report, contracts will, as soon as practicable, be entered into for furnishing such locks and keys for four years, with the right on the part of the Postmaster General, for the time being, to extend and continue the contract in force for an additional term of four years, by giving to the contractor a written notice to that effect, not more than nine nor less than six months before the termination of the first term of four years.

With a view of procuring the best lock at the lowest price, no kind of lock is prescribed as a standard, the Department relying for a selection on the mechanical skill and ingenuity which a fair competition, now invited, may develop. It is, however, proper to state that a lock suitable for the mail service should possess the following qualities, viz: durability, uniformity, lightness, and strength. Por the purpose of displacing simultaneously all the mail locks and keys now in use, about thirty thousand new locks and twenty thousand keys adopted, as well as the increase of the mail service; but it will probably never exceed in amount three thousand of the former and one thousand of the latter.

No lock will be considered if it be like any already in general use; nor will any one with whom the contract may be made be allowed to make, sell, or furnish, any lock or key similar to those contracted for for any other purpose or use than that of the Post Office Department.

The kind of lock adopted must be patented, and the patentse will be required, on entering into contract, to make an assignment of his patent for the exclusive use and benefit of the Department, if the Postmaster General shall deem such requirement essential to the interests of the service. In case of the failure of the contract anew with any other party or

mar 24-Philadelphia Type and Stereotype Foundry.

AND COMMERCIAL REVIEW.

Established, July, 1839,
BY FREENAN HUNT, EDITOR AND PROPRIETOR

obtained at the publisher's olino, 142 Fulton street, New York, neatly and substantially bound, for two dollars and a half per volume.

The following are a few of the many commendatory let-ters received by the editor of the Merchants' Magazine from distinguished statesmen:

Letter from the Hon. Henry Clay.

Magasine and Commercial Review, from viewing your portrait in the beginning, and from reading your address to your friends at the end of it. When we feel under obligations to those who have contributed to our information and amusement, we are naturally decirous to possess, all the knowledge of them, of their appearance, of the features of their countenance, and of the character and habits of their mind, which we can acquire. You have placed your numerous readers (at least you have me, if I may not speak for them) under those obligations; and the number of your valuable work now before me, in some togree, satisfies the desire to which I have alluded.

I have become quite familiar with the Magazine and Review, and have no hesitation in expressing my humble opinion that it is eminently entitled to the public repard and support. It collects and arranges, in good order, a large amount of valuable statistical and other information, highly useful not only to the merchant, but to the statesman, to the cultivator of the earth, to the manufacturer, to the mariner, in short, to all classes of the business and reading community.

Entertaining this opinion, I am glad that it has been, and hope that it may continue to be, liberally patronized.

Offering you cordial assurances of my esteem and regard, I am truly your friend and obedient servant.

Freeman Hunt, esq.

Extract of a letter from Hon. Millard Fillmore.

"I have read it (Merchants' Magazine) with a good deal of attention, and have no hesitation in saying that I think it one of the most valuable priodicals that was ever published. To the merchant it seems quite indispensable, and to the statesman and man of general information almost equally desirable. It is a grand repository of useful facts and information, which can be found nowhere so well digosted and so accessible as in these numbers. I only regret that I do not own the whole work."

Letter from the Hon. Thomas H. Benton.

Washington Crit. April 20. 1840

where so well digested and so accessible as in these numbers. I only regret that I do not own the whole work."

Latter from the Hon. Thomas H. Benton.

Washingatos Cryf, April 20, 1849.

Mr. Freeman Hunt.—Sir: I owe you many thanks for the opportunities I have had to read the Merchants' Magazine, and have found it in reality to be a magazine, and that well replenished, of all the useful matter which the title would imply, and presented with a fullness and elearness which delights while it instructs. It is, in fact, a merchants' magazine in the large acceptation of the term—merchants who go between nations, whose large operations bring many departments of knowledge, and a view of the state of the world, into daily requisition. But it is not the great merchant only, but the one of more modest, but, nevertheless, of most useful operations—the merchant of the interior also—who will find this magazine to abound with the information the pursuit of his business and the elevation of the mercantile character requires. Nor is its utility at all confined to merchants, but extends to the legislator and diplomatist, and to all who are charged with managing the affairs of the nation. For myself, I have found it most useful to me in my senutorial labors, and have been in the habit for many years of carefully consulting it.

Very respectfully, sir, your obedient servant, THOMAS H. BENTON.

My Dear Sir: Have the goodness to place my name on your list of subscribers for the Merchants' Magazine. I registri it as an invaluable work for the use of all who would understand not merely commercial operations in this extending country, but the fiscal and commercial questions involved in the administration of the govern-

ment.

I am, with great respect, your humble servant,

Freeman Hunt, esq. WILLIAM H. SEWARD.

The Merchants' Magazine is published monthly, at 142
Fulton street, New York, by FREEMAN HUNT, and furnished to subscribers for Five Dollars a year, in advance.

iberal terms.

N. B. Will receive the newest style of Dress Goods by very steamer. A large assortment of Trimming Goods always on hand.

BALTIMORE PIANO FORTE MANUFACTORY. ELASTIC* UNIVERSAL TOUCH.

ELASTIO* UNIVERSAL TOUCH.

WHEE & BROTHER, Manufacturers of Bondoir, Grand, and Square Planes, request those who would be assured of a first class Plano, one that ladies can perform on with the greatest possible advantage—one that the touch can be instantly adjusted to the exact strength of the recurs and movement of music, one that will stand in concert tune, one that the tone will not become shrill and crating, that is chaste of style and elegantly made up of draight and regular curve lines, that will last an age—to cive them a call. The ancient standing of the Baitimore factory, and liberal patronage of citizens and others of the first order of artiste taste and science, conceiled at once the most critical, have been fully anticipated. Their recently finished Grand Plano, minutely reviewed by the most accomplished eivil engineers and master artists, has been denominated truly a Grand Plano; also, that their late Bondoir, for style, power, and compuse of tone, is not surpassed, if equalled, in the World. Friends and customers, please stop in and examine for yourselves.

J. J. WISE & BROTHER,

No. 31 Hanover street, Baltimore.

* Elastic, because the keys recover their quiescent place in time equal to the displacing. Universal, because the same instrument may be instantly altered to any degree hard, or soft touch, so that ten thousand or more performers, all different, may each find the touch they prefer.

COLD SPRING WATER CURE.

COLD SPRING WATER CURE.

This NEW AND SPLENDID ESTABLISHMENT for the scientific treatment of the various diseases with which the human system is afflicted, is situated about three miles from the city of Buffalo, in a rural spot, and so accessible from all points as to be reached without inconvenience or delay.

A line of omnibuses runs from the steamboat landings in Buffalo to the springs every ten minutes.

The house and grounds are near the extensive and beautiful green-houses and nurseries of the Messra, Hodges & Bryants; and the scenery in all directions is unsurpassed, as regards either variety or beauty; embracing points of view, from which may be taken in at a glance the broad expanse of facke Erie, the Niagara flowing majestically towards the Falls, extensive forests, and the "Queen City of the Lakes," with its moving panorams of steamboats and consoless enterprise.

The water, taken immediately from the celebrated "Cold Spring," is unsurpassed as regards coldness and rurity, by any in the United States. The house, recently erceted at a cost of about seven thousand dollars, has been fitted up in a neat and elegant style, at considerable extra expense, and is sufficiently capacious to accommodate eventy-five patients.

Connected with the establishment, and constituting one of its attractions, are the fixtures and conveniences for innocent and healthful gymnastic exercises.

MEDICAL DEPARTMENT.

The institution is under the general supervision of S. M. Davis, M. D., Professor of the Theory and Practice of Medicine in Central Medical College, and Geo. W. Davis, M. D., formerly of Dansville, N. Y., the resident physician, and is permanently associated with the before mentioned gentleman as counsel, and associate of the medical board of control. And the friends of the establishment deem it a matter of felicitation that the services of Miss Mary M. Taylor, a lady of high medical attainments, who has attended two courses of lectures in the Central Medical College, have been secured, and that female patients can at any time avail themselves of her invaluable aid and counsel. MEDICAL DEPARTMENT.

any time avail themselves of her invaluacie and and coun-sel.

The steward's department is under the control of a gen-tleman eminently qualified for that position; and un wea-ried pains will be taken to have every thing appertaining to the establishment arranged on a plan, and conducted in a way, to ensure the comfort, and promote the health and happiness of all who may wish to avail themselves of its benefits. Baths of all descriptions, adapted to the cure of the various forms of disease, and constructed on a scale not inferior to those of any other establishment in this country.

of the various forms of disease, and constructed on a scale not inferior to those of any other establishment in this country.

An enlightened public sentiment has everywhere repudiated a reckless use of drugs in the treatment of disease; while intolerable sufferings and broken constitutions have imperatively demanded "Reform." A return from a wide and fatal departure from the simplicity of Nature's laws is called for, alike by a rational love of happiness and the deplorable exigencies of our condition. Hydropathy, or a scientific use of water as a restorative and curative agent, is a practical substitution of a simple and remarkably efficacious mode of curing the sick; for that system of drugging, depleting, and cauterising, which, in obtaining the mastery over disease, too frequently places the patient beyond the reach of further annoyance. The success of the various Water Cure establishments in this country, to say nothing of any other, has fully confirmed the hopes of the early discoverers and promulgators of the great truths upon which the system is founded, and renders verbal communications unnecessary. It is deemed sufficient to say, that the "Cold Spring Water Cure" will compare favorably with any of the well-conducted establishments of a similar character, and will be found equal to the best, as regards the order, convenience, and desirableness of its arrangements. The instinution is now open for the reception of patients, and in full operation.

tion of patients, and in full operation.

TERMS.

For board, medical avice, attendance and nursing, &c., from \$7 to \$14 per week, payable weekly, varying according to the room and attention required. Each patient will be required to furnish two lines sheets, two cotton rounforters, one woulen blanket, and four towels; or, where it is not convenient for the patient to furnish them as above, they can be supplied at the establishment by paying fifty cents a week.

All communications for medical advice should be addressed either to 8. M. Davis, M. D., or to George W. Davis, M. D., 239 Main street, Buffalo, N. Y.
